

ARCHAI-D Inc. — Investor One-Page (Public Version)

Redefining Artificial Intelligence Governance & Quantum Resonant Systems

Company Overview

ARCHAI-D Inc. is a Delaware-based technology company pioneering Quantum Resonant Intelligence — an auditable, ethical, and self-regulating AI framework that governs decision systems across medicine, defense, robotics, and governance.

Core Innovation

- 1 QER-GATE: Ethical action gating with quantum and classical resonance fidelity checks.
- 2 ITR: Resonant synthesis engine for lawful, optimized decision-making.
- 3 RPT / IRST: Multi-perspective fusion for robust consensus across disciplines.

Market Opportunity

- 1 AI Governance & Safety Market projected at \$400B+ by 2030.
- 2 Healthcare AI expected to reach \$188B by 2035.
- 3 Quantum & Secure Automation — fastest-growing segment of next-gen AI.

Investment Details

- 1 Stage: Seed Round
- 2 Raise: \$5M USD for 2.5% equity
- 3 Pre-Money Valuation: \$200M USD
- 4 Use of Funds: IP protection, prototype scaling, partnerships, and investor outreach.

Leadership Team

- 1 Rolando H. Fabars-Moya — Lead Inventor & Chief Scientist
- 2 Adán Ferrer Romeu — CEO & Co-Founder
- 3 Gregory Martínez — Head of Business Development
- 4 Rolando Zayas — CTO & Systems Architect
- 5 Maykel Molina — Visual Strategy & Communications

Why Invest Now

- 1 Protected by provisional patent filed under ARCHAI-D Inc. (2025).

- 2 Proven prototypes with export capability (PDF & JSON output).
- 3 Scalable to healthcare, defense, and AI governance markets.
- 4 Massive pre-IPO growth potential.
